PROFILE

Final-year Computer Science Engineering student skilled in building full-stack applications using Java, Spring Boot, React, and MySQL. Proficient in REST API development, JWT-based authentication, and database management, with 100+ DSA problems solved. Built projects like Smart Hire and ApplyTrack focused on real-world use cases. Seeking a Java developer role to build scalable and efficient applications.

TECHNICAL SKILLS

Languages: Java, JavaScript, C

Frontend: React.js, Tailwind CSS, HTML, CSS

Backend: Spring Boot, REST APIs, Hibernate, JDBC

Database: MySQL

Core Concepts: Object-Oriented Programming (OOP), Exception Handling, Collections, Multithreading

CS Fundamentals: Data Structures and Algorithms (DSA), DBMS, Operating Systems, Computer Networks

Developer Tools: Git, GitHub, Postman, VS Code, IntelliJ IDEA

EDUCATION

IES College of Technology

2022 – 2026

B.Tech in Computer Science and Engineering

CGPA: 7.99/10

Narayan Mahavidyalaya

2021

Class 12 (PCM)

Percentage: 80%

Gyan Ganga Public School

2019

Class 10

Percentage: 72.2%

PROJECTS

Smart Hire | *React.js, Spring Boot, Tailwind CSS, MySQL* | [GitHub](#) | [Live Preview](#)

- Developed **Smart Hire**, a full-stack job portal using **React, Spring Boot, and MySQL** with role-based authentication.
- Built **RESTful APIs** for job posting, application tracking, and user management.
- Integrated frontend components with backend APIs to handle user authentication and application workflows.
- Ensured secure authentication and authorization using JWT tokens.
- Followed basic **Software Development Life Cycle (SDLC)** practices including requirement understanding, implementation, testing, and refinement of features.

ApplyTrack | *React.js, Spring Boot, PostgreSQL* | [GitHub](#) | [Live Preview](#)

- Developed a full-stack job application tracker enabling users to manage 50+ applications efficiently.
- Implemented **JWT-based authentication with ownership-based access control** for secure user-specific data handling.
- Designed RESTful APIs for authentication and application CRUD operations using Spring Boot and PostgreSQL.
- Built a responsive React dashboard with filtering, sorting, and real-time status updates, reducing manual tracking effort by 40%.
- Deployed using Render and Netlify with seamless API integration.

CERTIFICATES / ACHIEVEMENTS

- Programming in Java (NPTEL)** | [Certificate](#)
- JavaScript Essentials (Infosys Springboard)** | [Certificate](#)
- Solved **100+** DSA problems on platforms like LeetCode and CodeStudio focusing on arrays, strings, and recursion.
- Participated in National level Drone and Robotics Competition at ICOT Bhopal.
- Competed in Inforia 2025 - Quiz Competition at IES University, Bhopal
- Participated in Coding Challenge during Inforia 2025, Annual Tech Fest of IES University, Bhopal, demonstrating problem-solving and algorithmic skills.
